Almost. We have a process that we use to verify assets. Once verified, we create a coin description page like this. The world of crypto now contains many coins and tokens that we feel unable to verify <https://gcmvc.info>. In those situations, our Dexscan product lists them automatically by taking on-chain data for newly created smart contracts. We do not cover every chain, but at the time of writing we track the top 70 crypto chains, which means that we list more than 97% of all tokens.

NFTs are multi-use images that are stored on a blockchain. They can be used as art, a way to share QR codes, ticketing and many more things. The first breakout use was for art, with projects like CryptoPunks and Bored Ape Yacht Club gaining large followings. We also list all of the top NFT collections available, including the related NFT coins and tokens.. We collect latest sale and transaction data, plus upcoming NFT collection launches onchain. NFTs are a new and innovative part of the crypto ecosystem that have the potential to change and update many business models for the Web 3 world.

In January 2024 the SEC approved 11 exchange traded funds to invest in Bitcoin. There were already a number of Bitcoin ETFs available in other countries, but this change allowed them to be available to retail investors in the United States. This opens the way for a much wider range of investors to be able to add some exposure to cryptocurrency in their portfolios.

## **All casinos accepting cryptocurrencies**

UX, or User Experience, is one of the most talked about aspects of the iGaming industry these days, but it goes far beyond the gambling industry, with technology such as interactive interfaces or VR/AR being slowly integrated.

Cryptocurrency casinos accept various digital currencies, including Bitcoin (BTC), Ethereum (ETH), Bitcoin Cash (BCH), Dogecoin (DOGE), Dash (DASH), and Litecoin (LTC). The list of accepted cryptocurrencies may vary from one casino to another, so it's important to check if your preferred cryptocurrency is supported before registering.

Tokenized assets and NFTs have already started being slowly integrated into the realm of crypto casinos, but it seems as though their role in the iGaming industry will only grow in the future, for example as in-game assets or items.
