Video slots replaced the old mechanical slot machines many years ago. These video slot machines were revolutionary, as they used Random Number Generators to deliver the results and audiovisual effects to enhance the gameplay. The term "video slots" now covers most online slots, and it can also refer to 5-reel games that don't offer Megaways paylines, progressive jackpots, or bonus buy features.

True to its name, the game is focused on wild symbols. The regular and special wilds pay up to 500x your bet, so you can expect decent prizes. While regular wilds can appear anywhere, special ones only show up on reels 3, 4 and 5.

NetEnt's Divine Fortune is one of the most popular progressive jackpot slots. Despite its high volatility, its minimum bet limit of \$0.20 allows even low rollers to try it. The Greek mythology theme and animated symbols are great for those seeking an immersive experience.
