Since its emergence, live gaming has never been the same, thanks to its significantly improved software, which completely revolutionized live casino gaming. As a matter of fact, the company signed its first agreement with PartyCasino in 2007, only a year after its inception.

The Evolution Gaming software suite encompasses live roulette, blackjack, craps, baccarat, poker, Sic Bo, Dragon Tiger, and game show-style gambling games such as Monopoly, Mega Ball, Crazy Time, Lightning Roulette, Gonzo's Treasure Hunt, Deal or No Deal, Dream Catcher, Lightning Dice, and Football Studio. Its blue screen technology allows online casinos to insert their branding in the background, but the games are run by the Evolution casino live gaming team.

My effect of rule variations page shows the normal six-card Charlie rule is worth 0.16% to the player. So, my overall house edge is $0.61\% - 0.16\% = 0.45\%$. The game help file claims a house edge of 0.49%. You can decide who to believe.
